

IN-GROUND GRAVITY DISPERSAL AREA

Uniform Elevation Trenches with EZ1203HP Bundles

3-ft Trench (down-sizing credit)

Septic Tank(s) Manufacturer: _____

Septic Tank(s) Volume(s):
 _____ gal _____ gal _____ gal _____ gal

Effluent Filter Manufacturer: _____

Effluent Filter Model #: _____

TYPICAL TRENCH CROSS SECTION VIEW
(No Scale)

Provide minimum 3 ft separation between trenches.

TYPICAL TRENCH PLAN VIEW
(No Scale)

(Show location of inlet / outlet pipe connection on plan view.)

INSTALL PER TRENCH:

$$\begin{aligned}
 & \text{_____ 10-ft bundles @ } 50 \text{ ft}^2 \text{ EISA/unit} = \text{_____ ft}^2 \\
 + & \text{_____ 5-ft bundles @ } 25 \text{ ft}^2 \text{ EISA/unit} = \text{_____ ft}^2 \\
 & = \text{Proposed EISA per trench} = \text{_____ ft}^2
 \end{aligned}$$

$$\text{x _____ trenches = Proposed Total EISA = _____ ft}^2$$

EZ1203H Bundle
(typical)
(mfd by Infiltrator Systems, Inc.)
Install pursuant to manufacturer's instructions.

$$\text{Required Infiltration Area} = \text{_____ ft}^2$$

Distribution Method: _____
